Hard work is the entry ticket. Method is the rank.

Er. Santosh Yadav

FOUNDER & DIRECTOR · PHYSICS

- **M.Tech (CSE), VNIT Nagpur**
- **12+ years** teaching Physics for JEE & NEET — the **Physics Guru** to a generation of Nagpur students
- **10,000+ students** mentored across JEE, NEET, MHT-CET and Foundation
- Leads the Physics team and **mentors every batch**, Classes 8 to 12

Dear students and parents,

JEE and NEET are not about hard work alone. They are about **smart work**. I have said this to every batch for twelve years, and every year the results say it again. Hard work is the entry ticket. What turns it into a rank is a method that runs every single day, without exception.

At The Rankers Academy we do not chase marks. We build **clarity of concept** from first principles, in language a sixteen-year-old understands, and then turn understanding into instinct through **daily practice**: a tab-based daily micro-test that helps every student revise, analyse and correct the day's mistakes; a DPP after every lecture; a supervised three-hour study session on campus; and a mentor who knows your child by name and acts before one slipping score costs a rank.

Dr. Sowmya and I lead the Physics and Chemistry teams ourselves. We sit at the doubt counters, read every micro-test file and speak to parents every quarter — or sooner, when something needs attention. None of this is complicated. It is simply done, daily.

Your child is standing at the start of the two most important years of school life. **Do not decide on a brochure — not even this one.** **Come and sit in one live class together. Then decide.**

FACULTY & MENTORS · NAMED, NOT "EXPERT FACULTY"

The people who will actually teach your child.

Parents are rightly tired of "expert faculty" with no names attached. These are ours. The two directors lead the Physics and Chemistry teams and take lectures themselves.

WHO READS THE TEST FILE

The teacher who takes the lecture also reads the micro-test file — **not a separate "doubt faculty"**. Mistakes are traced back to the concept, the same week.

SMALL ENOUGH TO BE KNOWN

Lecture batches of **40–50**, tutorial groups of **6–10**, and **one mentor for every 10 students** who knows each child by name.

BOARDS NEVER SACRIFICED

Board-expert faculty for 11–12 (CBSE & State) are part of every programme — **school marks are never traded** for the entrance exam.

Every faculty member is introduced to you personally on the visit. Tutorial mentors join batches as per the academic calendar.

Genius 40

One school. *One genius.* Fully sponsored.

From every partner school, one deserving Class 10 student earns a **fully sponsored two-year seat** at The Rankers Academy — selected through **RTSE 3.0**, the Rankers Talent Search Examination.

HOW IT WORKS

01 **A free lecture in your school**
Our faculty teach the most important topics to your Class 10 batch — at no cost to the school.

02 **RTSE 3.0 — the school edition**
Written in your school, on what was taught. Real paper, real rank, a report for every student.

03 **Prizes & the winner announced**
Top scorers are awarded in front of the school, and your school's sponsored Genius is named.

THE ROUTINE · LAXMI NAGAR CAMPUS · ONE DAY, ONE WEEK

What every single day looks like here.

Not a timetable pinned to a wall — a loop that closes the same day it opens.

8
STEPS, EVERY DAY

STEP 5 — The 45-minute micro-test — every student, every day, on a tablet, scored the same evening

1 — The day opens in silence
A short prayer before anyone picks up a pen.

2 — The lecture — taken by a director
Santosh Sir, Dr. Sowmya ma'am and the subject faculty team. 40–50 IN THE ROOM

3 — The DPP, before the room empties
On the concept just taught, as the class ends.

4 — The doubt counter opens
Run by the teacher who taught it — not a desk.

5 — The micro-test, on a tablet
Every student, every day. Same silence. 45 SILENT MINUTES

6 — The report, the same hour
Named the same day — not at the term test.

7 — Tutorial — on what you got wrong
From your own error log, not a shared sheet. GROUPS OF 6–10

8 — Supervised study hall
Three hours on campus with faculty on call, then the recording. 3 HOURS · FACULTY ON CALL

And what every week looks like

THE LOOP ABOVE, SIX DAYS · THE SEVENTH IS THE EXAM

Mon	Tue	Wed	Thu	Fri	Sat	Sun
FULL DAY	FULL DAY	FULL DAY	FULL DAY	FULL DAY	HALF DAY · ALTERNATE OFF	FULL-LENGTH TEST

Alternate Saturdays off, the other two half days — and that time is not empty: any student who wants one-to-one attention asks, and gets it. **Sunday is a full-length test.**

Seven hundred days like this — that is what a rank is made of.

WHY RANKERS ARE RANKERS · ENVIRONMENT, HABITS, TOOLS

Why Rankers are Rankers.

Same class. Same 24 hours. A completely different study environment — the habits, tools and people around a student, every day.

Less distraction | More direction | Better preparation

General student approach

THE TWO SCREENS THAT REACH A STUDENT MID-SUM

SMARTPHONE Beside the book — three hours at the desk, chapter unfinished

SMARTWATCH Leave the phone in the next room and the notification still reaches the wrist

Not lazy — just the wrong environment.

A good student can still struggle with **the phone beside the book and the notification mid-sum.** Long sitting, low output.

The Rankers approach

EVERYTHING A STUDENT NEEDS · NOTHING THAT DISTRACTS THEM

Dabba phone

FOR CALLING ONLY

No internet · no social media · **only calls.** Parents can always reach the student; nothing else can.

+

Smart study timer

FOCUS · SPEED · ACCURACY

Time-bounded practice builds speed, accuracy and exam temperament — the paper is written against a clock, so practice is too.

+

Learning tablet

LEARN · PRACTISE · MASTER

Lenovo Tab 10.1″ — chapter-wise material, PYQs, notes and tests, recorded and live classes, with a **screen-time limit and content control.**

= **The digital toolbox, for every student — ₹15,000 + GST** OPTIONAL

One-time payment · two years' use · **The Rankers Academy app** — premium study material, 6-day class recordings, daily in & out notifications, performance tracking, doubt support and mentoring.

THE RANKERS FORMULA

Right environment + Right habits + Right teachers + Right technology + Right practice = Better preparation

Your child doesn't need more pressure.
They need the right environment.

This is the Rankers way.

THE PARENT'S PAGE · THE DOUBTS WE HEAR EVERY WEEK · ANSWERED IN WRITING

Your doubts, answered straight.

The fifteen questions parents ask most at the counselling desk — about the teaching, the money, and the residence — answered here in writing, exactly as you will hear them on the visit.

Fifteen questions, answered

TEACHING · FEES & SAFETY · THE RESIDENCE

TEACHING & PROGRESS

01 *Who actually teaches — and how big is the batch?*

Santosh Sir's team takes Physics; Dr. Sowmya's takes Chemistry. Maths and Biology faculty are named on page 4. Lectures of 40–50, tutorial groups of 6–10.

02 *Will my child get personal attention?*

One mentor for every ten students. The tutorial group is built from your child's own error log, and the mentor calls you when the trend dips.

03 *How will I know how my child is doing?*

Attendance on the app, the **micro-test score the same evening**, every rank and error log in real time, a report every month — and **the mentor calls you first.**

04 *What if my child falls behind, or misses a class?*

The daily micro-test catches a slip within days: remedial sessions, a tighter group, **and a call to you.** Missed lectures stay on the app for six days.

05 *Will the boards suffer because of JEE or NEET?*

No. Board faculty, board-pattern tests and separate 11–12 board batches are inside every programme — **no second tuition.**

FEES, SAFETY & CHOOSING

06 *Which programme is right — and what if we are not sure?*

Find your box on page 12. Not sure? **Your child writes the free diagnostic test on the visit** and we advise from the paper, not the brochure.

07 *Will the fee change later in the course?*

No. The fee is **fixed for the full course and given to you in writing**, with the instalment schedule signed on the admission letter.

08 *Is there a scholarship?*

Yes — the RTSE on page 3: a free paper, any school or board, **up to 90% of the tuition** for top scorers. WhatsApp **RTSE** to 832 910 0890.

09 *Is the centre safe?*

CCTV across the campus, corridors, reception and library; a staffed front desk through the day; a **counsellor on staff.**

10 *How will my child travel to the centre?*

The centre is **200 m from Mate Square**, on the bus and auto routes. Shifts end by 8:15 PM, so nobody travels late.

THE RESIDENTIAL PROGRAMME

11 *We are from outside Nagpur — is there a residence?*

Yes, and it is **running now** — a closed campus minutes from the centre, with rooms, three meals cooked on site and supervised evening study. Page 11.

12 *Who looks after my child after class hours?*

The same institution. **One building, one management** — the teacher who marks the micro-test and the warden who switches off the light answer to the same person.

13 *What about food, laundry and health?*

Three meals a day, cooked on site. Laundry, Wi-Fi and regular health checks, on a closed campus with 24×7 CCTV.

14 *Is the new residential campus open?*

No — and we say so on page 11. It is **planned, not yet open**, and details may change. Nothing is promised except in writing.

15 *Can we see the rooms — and what does it cost?*

See them on the same visit: **ask for the residential coordinator** on 832 910 0890. The figure is quoted separately from tuition, **in writing, before you decide.**

Can we try before we decide? Yes — that is the whole point of the next page.
